**Issue Date: 28 May 2026**

**Estimated Cost: PKR 1,850 Million**

**Procurement Method: National Competitive  
Bidding**

# 1. Project Description

The Communication & Works Department invites sealed bids for the rehabilitation, widening and improvement of 64 kilometres of district roads under Package-IV, including reconstruction of three (3) reinforced concrete bridges of spans 40m, 65m and 110m, road-side drainage, retaining structures and road safety furniture. The construction period is twenty-four (24) months including two monsoon seasons.

# 2. Mandatory Eligibility Requirements

| #  | Mandatory Requirement                                                                                                     |
|----|---------------------------------------------------------------------------------------------------------------------------|
| M1 | The bidder must be registered with the Pakistan Engineering Council (PEC) in category C-A or C-1 with relevant specializ  |
| M2 | The bidder must have completed at least three (3) road construction contracts each of value not less than PKR 700 Million |
| M3 | The bidder must have completed at least one (1) bridge structure of span 60 metres or greater as prime contractor.        |
| M4 | Average annual construction turnover of at least PKR 1,500 Million over the last three audited financial years, supported |
| M5 | Bid security of PKR 37 Million (2%) in the form of CDR or bank guarantee.                                                 |
| M6 | The bidder must own or have assured access to a batching plant, asphalt plant and crusher within 50 km of the project co  |
| M7 | Valid ISO 14001 environmental management certification is required for works within the protected watershed zone.         |

# 3. Technical and Execution Requirements

| #  | Requirement                                                                                                                  |
|----|------------------------------------------------------------------------------------------------------------------------------|
| T1 | The bidder should submit a detailed construction methodology covering earthworks, pavement layers, structures and traf       |
| T2 | The bidder should provide a CPM-based work program demonstrating completion within 24 months including monsoon c             |
| T3 | Key staff shall include a Project Manager (PEC registered professional engineer, 15+ years), a Bridge Engineer (10+ ye       |
| T4 | The bidder should describe its HSE management system; a documented zero-fatality record over the last five years is pre      |
| T5 | The bidder should propose a quality control plan with on-site laboratory facilities for soils, aggregates, concrete and asph |
| T6 | Experience executing road or bridge works for federal or provincial government clients will be evaluated favourably.         |

# 4. Evaluation Criteria

| Criterion                                  | Weight |
|--------------------------------------------|--------|
| Relevant experience (roads and structures) | 35%    |
| Financial capability and turnover          | 20%    |
| Construction methodology and work program  | 20%    |
| Key personnel and equipment                | 15%    |
| QA/QC, HSE and environmental compliance    | 10%    |

# 5. Key Dates

| Milestone                      | Date                   |
|--------------------------------|------------------------|
| Pre-bid site visit and meeting | 16 June 2026, 10:00 AM |
| Bid submission deadline        | 2 July 2026, 11:00 AM  |

| Milestone    | Date                  |
|--------------|-----------------------|
| Bid opening  | 2 July 2026, 11:30 AM |
| Bid validity | 90 days               |
