

**GOVERNMENT OF PUNJAB
ENERGY DEPARTMENT**

REQUEST FOR PROPOSALS (RFP)

**Design, Supply, Installation and Commissioning of
Grid-Tied Solar PV Systems (5 MW Aggregate) at
Twelve Public Hospitals**

RFP Reference No: ED/PROC/2026/RFP-117

Issue Date: 1 June 2026

Estimated Project Cost: PKR 280 Million

**Procurement Method: Single Stage – Two Envelope
(PPRA Rules 2014)**

1. Background and Objectives

The Energy Department, Government of Punjab, intends to reduce the grid electricity expenditure of public healthcare facilities by deploying grid-tied solar photovoltaic systems with an aggregate capacity of 5 MW across twelve district hospitals. The successful bidder shall design, supply, install, test and commission the systems, including net-metering approvals, and provide operations and maintenance services for a period of three (3) years from commissioning.

2. Scope of Work

The scope includes: (a) site surveys and detailed engineering design for each hospital; (b) supply of Tier-1 solar PV modules, string inverters and mounting structures; (c) civil and electrical installation works; (d) SCADA-based remote monitoring with a central dashboard; (e) liaison with DISCOs for net-metering licenses; (f) training of hospital engineering staff; and (g) comprehensive O&M; including performance guarantees for 3 years.

3. Eligibility and Mandatory Requirements

Bidders failing any mandatory requirement shall be disqualified.

#	Mandatory Requirement
M1	The bidder must have successfully completed at least two (2) solar PV or renewable energy projects each of contract value of at least PKR 10 million.
M2	The bidder must hold a valid ISO 9001 quality management certification.
M3	The bidder must have prior experience working with federal or provincial government clients in Pakistan.
M4	The bidder must submit a bid security of two percent (2%) of the bid price in the form of a bank guarantee from a scheduled bank in Pakistan.
M5	The project manager assigned must hold a valid PMP certification with a minimum of eight (8) years of infrastructure project management experience.
M6	The bidder must be registered with the Federal Board of Revenue and provide an active taxpayer certificate.

4. Technical Requirements

#	Technical Requirement
T1	Solar PV modules shall be Tier-1, with a minimum module efficiency of 21% and a 25-year linear performance warranty.
T2	The bidder should provide a SCADA or IoT-based remote monitoring solution with a centralized web dashboard covering all project sites.
T3	The bidder should demonstrate in-house engineering capability for grid interconnection studies and protection coordination.
T4	All electrical works shall comply with IEC 62548 and the Pakistan Electricity Code; installation teams should include licensed electricians.
T5	The bidder should propose a preventive maintenance plan with quarterly site visits and a 48-hour fault-response commitment.
T6	The bidder should describe its HSE policy and provide evidence of safe execution of works at operational healthcare facilities.
T7	The bidder should provide a structured training and knowledge-transfer program for hospital engineering staff.
T8	Experience integrating renewable energy systems with hospital or other critical infrastructure will be considered an advantage.

5. Evaluation Criteria

Technical proposals will be evaluated out of 100 marks. Bidders scoring less than 70 marks in the technical evaluation shall not be considered for financial evaluation.

Criterion	Weight
Relevant project experience and past performance	30%

Criterion	Weight
Technical approach, methodology and work plan	25%
Key personnel qualifications and team composition	15%
Quality assurance, HSE and risk management	15%
Financial capability and certifications	15%

6. Key Dates and Submission

Milestone	Date
Pre-bid meeting (Energy Department Committee Room, Lahore)	18 June 2026, 11:00 AM
Deadline for written queries	24 June 2026
Proposal submission deadline	9 July 2026, 02:00 PM
Technical bid opening	9 July 2026, 02:30 PM
Bid validity period	120 days

Proposals shall be submitted in two separate sealed envelopes marked "Technical Proposal" and "Financial Proposal", one original and two copies each, addressed to the Section Officer (Procurement), Energy Department, Government of Punjab, Lahore.

7. Required Proposal Sections

Bidders must respond to each of the following sections: (Q1) Company profile and relevant experience; (Q2) Understanding of the assignment and proposed technical approach; (Q3) Detailed work plan and timeline; (Q4) Team composition with CVs of key personnel; (Q5) Quality assurance, HSE and risk management plans; (Q6) O&M; and training methodology; (Q7) Certifications and statutory registrations.
